

Installed in 45 countries with more than 20,000 sites, Radiant Systems' Orderman radio ordering system has one crucial advantage over competitive systems -- it was specifically designed for the hospitality industry. With more than 15 million transactions per day worldwide, Orderman is the leading handheld solution that is reliable, durable, secure and easy to use. The Max2plus sets the standard in terms of user friendliness and flexibility - standards that are often imitated but never matched.

The Orderman Max2plus helps you to reach for greater success by increasing profits and improving quality of service. Every restaurant can operate faster, more efficiently and focus on maximizing customer service. Whether you own an ice-cream parlor, bar, coffee shop, cafe, pub or restaurant – Max2plus enhances mobility, speed, friendliness, competence and ultimately, profits.

### INCREASE PROFITS

- Simply said -- turn tables faster and seat more guests

### IMPROVE OPERATIONAL EFFICIENCY

- Customizable user interface accomodates any menu
- Radio signals ensure 100% freedom from malfunctions – from the kitchen to outdoor seating areas
- Unmatchable robustness, legibility and light weight feel provide ease-of-use for your staff
- Provides the greatest wireless range, coverage and security

### IMPROVE QUALITY OF SERVICE AND GUEST SATISFACTION

- Store the most popular orders on the touchscreen using the menucard which enables the majority of dishes or drinks to be ordered with just one touch
- Handle payments and print at the table for increased speed of service
- Provide the ultimate rapid response when serving your customers

ORDERMAN MAX2PLUS

# ORDERMAN. GET MORE.
